

# Veterinary Regulations

## Vlth International Open German Cavalry Championship

10 - 12 September 2021

### Requirements for horses:

1. All horses need to be physically fit **and show no sign of infectious disease.**
2. All horses have got a **valid identification document.**
3. **Each participant from abroad** needs to keep ready the necessary **health information** for the transport of the horse to the event right at arrival:
  - a. For **horses out of EU member states:** health information for registered equidae according **chapter 7 of Council Directive 2021/403** in its latest version,
  - b. **For horses out of third countries:** health information for registered equidae **according Annex II of Commission Decision 92/426** in its latest version.

The health information needs to be issued **in German and in one of the official languages of the member state.** The health information needs to be the original version.

4. The horses need to be fit for transport and need to be transported in a suitable horsebox. All legal requirements according checkup for special diseases need to be inquired at the right time before transport and conducted before the horse will cross German border.
5. All horses need to have **sufficient vaccination for influency (not older than 6 months)** which needs to be testified in the identification document.
6. Sufficient vaccination for **Equine Herpes is recommended.**

Compliance with the veterinary regulations will be checked by an official veterinary **before stabling** the horses at the event. Uncompliant horses are not allowed to attend the event and need to be returned under consideration of animal welfare. When necessary such horses can stay at a separate stable up to return.
